### WORK EXPERIENCE IN TORINO

Formazione 80 helps you managing your mobility project in the North of Italy

**Formazione80** is a non-for-profit association working in the field of european mobility since 2000 ( 18 years experience).

We work and co-operate with many european partners organizing the stay of young people participating to the mobility actions.

We have a wide network of private and public organisations co-operating with us within the mobility programmes. This allows us to provide the most appropriate training to every trainee. **Formazione 80** selects companies paying particular attention to the participant's profile to match work placements with each participant's career objectives.

We are located in **Torino**, north-west of **Italy**, a beautiful town close to the Alps. Torino is an important centre of cultural innovation ,and **Formazione80** hosts every year many young people who want to have a work practice experience.

### OUR SERVICES FOR MOBILITY PROJECTS

The participants will share apartments with Italian people so as to have direct access to the Torino life-style. The houses are easily connected to the city center and to the companies in which the internships are carried out.

The participants are offered a tour of the city, to help them orienting themselves in town and gain autonomy while getting acquainted with the most significant landmark of Torino.

We give plenty of information on how to access services ( public transportation , library, post office, hospital) as well as to solve the basic needs of everyday life.

During the first weeks of stay, participants attend an intensive course on Italian language and culture, in order to acquire the necessary basic communication skills. Our courses are held by teachers specialized in teaching Italian language and culture to foreigners, ensuring high quality and efficiency standards.

Each participant are accompanied by our tutor to a presentation interview in the internship company, to meet and to get to know the company tutor and co-workers.

The participants are followed by a tutor of **Formazione 80** who is available also at night for emergency.

During the project the tutor organizes regular review meetings with practitioners, to address and resolve any doubt or difficulty that may arise at work or in everyday life. Moreover the tutor helps the participants to prepare all necessary documents required by the project.

**In case you are interested in co-operating with us, don't hesitate to contact us for any further information or quotation of a specific budget following your needs.**
